

Back End Web Developer

Cheltenham, Gloucestershire

Would you like to work for one of the leading marketing agencies in the south west?

Are you a talented developer looking for an opportunity to step-up and widen your skill set?

Ever-increasing demand for our digital services and recent growth of the digital team creates a fantastic opportunity to join Factor 3.

About you

We're looking for someone with a passion for web development who enjoys learning and embracing new technology within a team environment.

All candidates should be able to demonstrate that they can write clean and well structured markup that passes W3C validation and employs 'progressive enhancement' or 'graceful degradation' techniques to ensure the best experience possible across a range of browsers.

Candidates should also be able to demonstrate an understanding of developing mobile web interfaces and be familiar with techniques for dealing with different formats including tablet devices.

Joining the Factor 3 team means that you'll get amongst a host of big brands, projects where your work will be seen by thousands of people a day and some really fun jollies!

Your skills

Essential skills

- Knowledge of XHTML / HTML 5
- Knowledge of CSS 2/3
- Knowledge of JavaScript/jQuery
- Hand coding with minimal library/plugin use
- Open Source CMS development, (WordPress, Magento, etc.)
- PHP/MySQL
- Web server administration (cPanel / WHM)
- Version control (Git)
- PHP Frameworks (CodeIgniter, Yii, etc.)
- Database management

Advantageous experience

- Domain management
- LAMP developer (SSH access)
- OO methodologies
- API integration (CRM, Email, Payment Gateway, PSP, Social Networks, etc)
- SASS/Compass workflows
- IT Skills (sys admin, networks, printers, etc.)

We're most interested in finding someone with the right attitude, who is eager and enthusiastic to learn, with demonstrable experience of working on corporate websites and content management systems.

Successful candidates are likely to have an appropriate degree in a computing or web based subject at least four years' commercial experience as a minimum – ideally you will have a portfolio of sites that you have developed or been involved with, included with your CV.

Benefits

- Competitive salary
- Working on big-brand projects
- Building sites with 1000's of daily visitors
- Working for one of the south west's most respected IPA member agencies
- CPD (Continuous Personal Development) programme and regular training
- Town centre location
- On-site parking
- Employer pension contribution*
- BUPA Healthcare*
- Gym Membership*
- Childcare vouchers*
- Plenty of team and company events, parties and socialising

*(Following successful completion of a 3 month probationary period)

If this sounds like the role for you then email your CV now for immediate consideration to ed@factor3.co.uk with details of your notice period and salary expectations.
